**Distributors to the Trade
for
Traditional Yacht and Ships Fittings**

All measurements and illustrations are given in good faith to, as accurately as possible, portray the product to the reader. Traditional manufacturing methods, however, do produce slight variances in form and size, therefore all information is given as a general guide. Conversion between metric and imperial are as near as possible. Specifications may be altered without notice and we recommend that no apertures are cut nor holes drilled until the item is in the hands of the fitter.

Terms of business and conditions of sale may be found in our current price list.

Marine companies wishing to open a credit account with Davey & Company should apply to us on their headed paper for an application form.

Introduction

88 West India Dock Road London E14

In February 1885 Arthur Christopher Davey began a venture that throughout the 20th century evolved into a culture in the manufacture and supply of marine equipment.

From humble beginnings in Leadenhall Street, the company soon moved to its famous address at 88, West India Dock Road, London E 14, where it successfully traded for over 100 years. As one of the UK's oldest marine companies, it is fitting that we are now based in Britain's oldest recorded town of Colchester

Throughout our long history we have endeavoured to give good service with quality, and as yesterdays courtesies become today's traditions, we continue to serve the industry with due care and deference. This philosophy is underpinned by our position as an MOD supplier since our inception.

Within the covers of this catalogue you will find many items that have been in production throughout most of the last century, and are still produced in the same way, from the same patterns, today. Largely made in the midlands of England, we offer genuine cast bronze, brass and galvanised fittings, that do today's job, with a touch of history.

At Davey & Company we specialise in the production of traditional fittings using traditional materials. This means that we try to avoid the use of stainless steel and aluminium, which are widely used on modern craft, and favour instead the bronzes, brass, copper and galvanised iron. Apart from being more pleasing to the eye, these materials offer different qualities than their modern counterparts and are perhaps these days less well understood. To help answer some of the more frequently asked questions and to support our product descriptions, the following notes are offered as guidance.

CUSTOM CASTING

See page 5 for information about how our traditional skills can be utilised to produce equipment to your design and specification.

We can also modify some of our standard fittings by, for instance, supplying without fixing holes so that they can be drilled in-situ or perhaps we have an old pattern that would suit you that is not currently in production.

METALS

Gunmetal

The first and most important thing to say here is that **gunmetal is bronze**, or to be more accurate, it is one of the bronzes and is a nice warm 'browny-gold' colour. Its designation is LG2 (LG stands for leaded gunmetal) and consists of copper (85%), lead (5%), tin (5%) and zinc (5%). Gunmetal is a favoured material to use for traditional boat fittings because it takes casting, machining and polishing very well, is relatively strong and very resistant to salt water, so it does its job for a very long time. All Davey products made from gunmetal include the letters GM in the part number.

Incidentally, 'polishing', in foundry terms, just means that after the item is knocked from the sand mould with its very rough surface, it is sanded down using progressively finer abrasive and polishing belts until it has a mirror smooth and shiny finish. This surface will, on contact with sea air, slowly patinate to a pleasing darker brown colour with tinges of green, but this does not effect its strength, performance or life expectancy and is, in fact, its natural state. If a gleaming polished finish is preferred then any good metal polish can be used to keep it 'as new' and perhaps a smear of petroleum jelly will keep the polished finish longer where the function of the fitting allows.

Aluminium Bronze

For fittings which need a higher strength as well as excellent seawater resistance we use aluminium bronze, designation AB2, which is an alloy consisting of copper (83%), aluminium (10%), nickel (5%) and iron (3%). This is a paler yellow/gold colour and having more than twice the strength of gunmetal is ideal for manufacturing our 'Grabit' boathook and reefing claws. For this material our part numbers include the letters AB.

Brass

There are many alloys in use in the world today called brass, with some being better than others. As we are primarily listing brass items made in England, where the controls are quite stringent, the quality of the brass used is of a high standard. However, it should be noted that brass is best used for interior fittings and should never be used in a submerged position. Brass items contain the letters BR in the number.

Metals & Fastenings Guide

Chrome Plate

Many items in this catalogue are produced and listed with a chrome plated finish (usually on top of brass), and carry the letters CP in the number. Many others that we list only in gunmetal or brass can also be chrome plated to order, and we would be pleased to quote for this service. It should be noted, however, that gravity sand cast items (which is how many of our products are made) can sometimes have small pits on the surface which all but disappear when they are finally polished in the foundry. It is possible when chrome plating these items that these blemishes can sometimes re-appear.

FASTENINGS

Galvanic Corrosion Avoidance

It is very important that the correct fastenings are used to attach each fitting to the boat. It is not enough that the fastenings themselves are of marine quality, they must also be close in the Galvanic Series to the metal the fitting is made from. If they are too dissimilar, the less noble one will corrode.

The following table shows those combinations that are suitable and those that are not. A selection of our traditional marine fastenings can be found towards the end of this catalogue.

Fitting Material	Fastenings	
	Suitable	Not Suitable
Gunmetal	Silicon Bronze or Stainless Steel	Brass
Brass	Brass or Silicon Bronze	Stainless Steel
Galvanised Iron	Galvanised or Stainless Steel	Silicon Bronze

Silicon Bronze

This is an excellent material for the production of marine fastenings. It is high in strength and corrosion resistance and can be formed and machined into most kinds of fastenings including wood screws, machine screws, coach bolts, coach screws and nails. It is more expensive than most other materials, but this is paid back through its high strength and long life.

Fastening Type

For some of our items in this catalogue we have stated a fastening type or size as a guide in relation to normal use and method of fixing. It is recommended, however, that fittings that could take a heavy prolonged or snatch load should be bolted rather than screwed, with reinforcing pads underneath, if required, to spread the load.

Custom Cast Work

At Davey & Company we have a long history of design and manufacture using traditional, some may say, old fashioned ways. When developing products we invariably use pencil and paper, rather than computer programs, and 'feel' our way into the final product. Our team of specialist craftsmen, all working in the UK, use traditional manufacturing skills and processes to keep our range alive. This same team produces special equipment for projects all over the world.

From an old, possibly broken, example, we can produce a pattern and then the finished item, exactly as dictated by history, or the current owner.

Or, a simple sketch with dimensions is enough for us to give a broad quote with, perhaps, any comments about style, strength or materials.

Special Herreshoff style cleat for the UK

Miniature anchors for Holland

We know how hard it is to find the right fittings today. Many of the old manufacturers have ceased trading over the years and replacing lost or broken parts to the same style, off the shelf, is all but impossible. At Davey & Company, we try to ease some of these problems by producing equipment that is right for the boatyard, right for the owner and, especially, right for boat.

61 x Special 12" portlights for Austria

Deck Hardware & Exterior Fittings

Polished Bronze Portlights

These heavy duty Davey portlights are traditionally hand made in England to the highest quality and CE approved for upper hull areas and cabin sides. Supplied with outside finishing rings they are fitted with toughened glass and have a polished finish. The 8" round opening and all three oval opening portlights have two closures for additional security. Chrome plate finish and reduced spigot lengths are available to special order. 12" opening and fixed available to special order.

NEW

Drip Cup

Cast in bronze with a polished finish, this new addition to our range is designed to catch the condensation that can drip from portholes. Also available chrome plated.

Bronze	Chrome	Width	Height	Projection
3010/GM	3010/CP	4 ³ / ₄ " 120mm	2" 52mm	1 ¹ / ₄ " 34mm

Fly Screens

These fly screens are manufactured from stainless steel mesh and have a flexible outer rim that holds them firmly in the bore of the portlight. As a simple push fit they are easily installed without tools and can be simply removed and stored when not required. The door remains fully usable when the fly screens are in place. There is a size to suit each Davey portlight or any other portlight with the same internal shape and size. Other sizes can be made to special order.

Deck Hardware & Exterior Fittings

Deck Lights

From the early 1900s, Davey & Company has been producing a range of deck prisms to bring natural light down below. Manufactured in England these prisms are solid glass with either flat bronze frames, where the glass is rabbetted in, or deep bronze frames for thinner decks. In both cases a marine quality black mastic should be used such as a polysulphide or synthetic rubber and to improve adhesion the glass should be abraded first where the sealant touches. Frames can be chrome plated to order or, in some cases, supplied in polished stainless steel.

Rabbetted Deck Prisms

In this style the glass is set first into the deck using a marine quality mastic and then a flat frame is positioned over the rim of the glass and screwed down. This is only suitable where there is sufficient depth of wood to support the weight of anyone walking on it.

2411 Rabbetted

Bronze c/w Glass	Stainless Steel c/w Glass	Overall Size	Depth	Nominal Glass Size	Spare Glass
2411/GM/225	2411/SS/225	10 ¹ / ₄ " x 4 ⁷ / ₈ " 260 x 124mm	2 ¹ / ₄ " 57mm	9" x 3" 229 x 75mm	2409/OO/225/075
2411/GM/250	2411/SS/250	11 ³ / ₈ " x 5 ³ / ₈ " 290 x 137mm	2 ¹ / ₄ " 57mm	10" x 3 ¹ / ₂ " 260 x 89mm	2409/OO/250/087

2413 Melon

The melon has the greatest light output, but also the greatest depth, so care should be taken when fitting above walkways or other areas to ensure adequate headroom.

Bronze c/w Glass	Stainless Steel c/w Glass	Overall Diameter	Depth	Glass Diameter	Spare Glass
2413/GM	2413/SS	7 ³ / ₄ " 195mm	5 ¹ / ₂ " 140mm	5 ¹ / ₂ " 140mm	2408

Deep Frame Deck Prisms

The style of this prism is ideal for thinner decks such as steel, aluminium or fibreglass. The frame is fixed to the deck first and the glass is then set into the frame from the top using a good quality marine mastic.

2414 Deep Frame Oblong

Gunmetal c/w Glass	Overall Size	Depth	Nominal Glass Size	Spare Glass
2414/GM/225	11" x 5" 279 x 127mm	2" 50mm	9" x 3" 229 x 75mm	2410/OO/225/075
2414/GM/250	12¼" x 5¾" 311 x 146mm	2¼" 57mm	10" x 3½" 254 x 89mm	2410/OO/250/087
2414/GM/300	14½" x 6½" 368 x 165mm	2½" 64mm	12" x 4" 305 x 100mm	2410/OO/300/100

2415 Deep Frame Melon

Gunmetal c/w Glass	Overall Diameter	Depth	Glass Diameter	Spare Glass
2415/GM	8⅝" 206mm	4½" 115mm	5½" 140mm	2407

This is a fairly recent development which allows the very popular melon prism to be more easily fitted into thinner decks.

2418 Deep Frame Round Prism

Gunmetal c/w Glass	Overall Diameter	Depth	Glass Diameter	Spare Glass
2418/GM	10" 250mm	1⅙" 27mm	8" 200mm	2421/OO/200

This prism is an effective alternative for the bulls eye pattern below.

2417 Bulls Eye-Deep Frame

Gunmetal c/w Glass	Overall Diameter	Depth	Glass Diameter	Spare Glass
2417/GM/206	8⅝" 206mm	1¼" 45mm	6" 150mm	2416/OO/150
2417/GM/260	10¼" 260mm	2" 50mm	8" 200mm	2416/OO/200

Deck Hardware & Exterior Fittings

Mushroom Ventilators

Manufactured in gunmetal, we produce low profile vents for the coach roof and higher patterns for areas that could become awash. The high patterns have a through deck spigot and inner neoprene seal for added water protection and all vents have a 'T' handle for opening and closing.

Deck Hardware & Exterior Fittings

Cowl Vents - Cast Bronze

Heavy cast bronze cowl vents with flush bronze deck plates, produced in the UK by traditional methods. The outer surface is polished and the inside a contrasting sateen finish, which is attractive in itself but also aids internal painting if required. A securing screw is fitted to allow the vent to be locked in any position and a blanking cap and key are included for when the vent is removed. Available in two sizes. They can be chrome plated to order or supplied with a matt finish.

Deck Hardware & Exterior Fittings

Cleats

Davey & Co. produce a wide range of bronze cleats. The items on these pages are those currently in production, but other patterns and sizes are available to special order. Please enquire if the item you need is not shown here. Most gunmetal items can be chrome plated on request.

1084 Pillar Cleat

Gunmetal	Length		Base Width		Fastenings
1084/GM/062	2½"	62mm	½"	12mm	No. 6 screw
1084/GM/100	4"	100mm	¾"	22mm	⅜" 5mm
1084/GM/125	5"	125mm	1"	25mm	¼" 6mm
1084/GM/150	6"	150mm	1½"	28mm	¼" 6mm
1084/GM/175	7"	175mm	1¼"	32mm	¼" 6mm
1084/GM/200	8"	200mm	1⅜"	36mm	⅝" 8mm
1084/GM/250	10"	250mm	1⅝"	40mm	⅝" 8mm

1073 Jamb Cleat

Gunmetal	Length		Base Width		Fastenings
1073/GM/075	3"	75mm	⅝"	16mm	No. 6 screw
1073/GM/100	4⅝"	105mm	¾"	19mm	No. 8 screw
1073/GM/125	5"	125mm	1"	25mm	No. 10 screw
1073/GM/150	6"	150mm	1"	25mm	No. 12 screw
1073/GM/175	7"	175mm	1"	25mm	No. 14 screw

1077 Flat Top Cleat

Gunmetal	Length		Base Width		Fastenings
1077/GM/100	4"	100mm	1½"	32mm	No. 8 screw
1077/GM/125	5"	125mm	1⅜"	38mm	No. 8 screw
1077/GM/150	5⅝"	150mm	1⅝"	40mm	No. 10 screw

1078 Open Top Cleat

Gunmetal	Length		Base Width		Fastenings
1078/GM/100	4"	100mm	⅞"	22mm	⅜" 5mm
1078/GM/125	5"	125mm	1"	25mm	¼" 6mm
1078/GM/150	6"	150mm	1½"	28mm	¼" 6mm
1078/GM/175	7"	175mm	1¼"	32mm	⅝" 8mm

1089/BR/048 & 1089/BR/070

Part No.	Length		Base Width		Max Line Size	Fastenings
1089/BR/048	1⅞"	48mm	¾"	19mm	6mm	No. 6 screw
1089/BR/070	2¾"	70mm	¾"	19mm	8mm	No. 8 screw
1089/GM/LH/081	3¼"	82mm	⅞"	22mm	10mm	No. 8 screw
1089/GM/LH/087	3½"	89mm	⅞"	22mm	12mm	No. 8 screw
1089/GM/RH/081	3¼"	82mm	⅞"	22mm	10mm	No. 8 screw
1089/GM/RH/087	3½"	89mm	⅞"	22mm	12mm	No. 8 screw

1089 Tubular Jamb Cleat

Left Hand

1070 Horn Cleat

Gunmetal	Length		Base Width		Fastenings
1070/GM/075	3⅝"	79mm	⅞"	22mm	No. 6 screw (x2)
1070/GM/100	4"	100mm	1½"	28mm	No. 8 screw (x2)
1070/GM/150	6"	150mm	1¼"	32mm	No. 8 screw (x4)
1075/GM/100	4"	100mm	1⅜"	35mm	No. 8 screw (x2)
1075/GM/125	5"	125mm	1⅝"	42mm	No. 10 screw (x2)
1075/GM/150	5¾"	148mm	2"	50mm	No. 10 screw (x4)

1075 Tall Horn Cleat

The 1075 pattern is much heavier duty than the 1070 pattern.

Deck Hardware & Exterior Fittings

1085 Herreshoff Cleat

Herreshoff style cleat with hollow top bar. The bases are tapped to accommodate M16 studding or bolts

Part No.		Length	Base Width	Fastenings
1085/GM/300	Gunmetal	11 $\frac{3}{4}$ " 296mm	2 $\frac{3}{8}$ " 32mm	M16
1085/CP/300	Chrome	11 $\frac{3}{4}$ " 296mm	2 $\frac{3}{8}$ " 32mm	M16

1098 Torpedo Cleat

Gunmetal	Head Length	Base Length	Base Width	Fastenings
1098/GM/087	3 $\frac{1}{2}$ " 89mm	2 $\frac{7}{8}$ " 73mm	1 $\frac{1}{4}$ " 32mm	No. 6 screw
1098/GM/112	4 $\frac{1}{2}$ " 114mm	4 $\frac{3}{8}$ " 112mm	1 $\frac{1}{2}$ " 38mm	No. 8 screw
1098/CP/087	3 $\frac{1}{2}$ " 89mm	2 $\frac{7}{8}$ " 73mm	1 $\frac{1}{4}$ " 32mm	No. 6 screw
1098/CP/112	4 $\frac{1}{2}$ " 114mm	4 $\frac{3}{8}$ " 112mm	1 $\frac{1}{2}$ " 38mm	No. 8 screw

1088 Bar Cleat – Bolt Through

Gunmetal	O.A. Height Above Base Plate	Base Dimensions	Bolt Size
1088/GM/162	2 $\frac{1}{2}$ " 64mm	6 $\frac{1}{2}$ " x 2 $\frac{1}{4}$ " 165mm x 57mm	4" x $\frac{7}{16}$ " 100mm x 11mm
1088/GM/238	3 $\frac{1}{4}$ " 82mm	9 $\frac{1}{2}$ " x 2 $\frac{1}{2}$ " 241mm x 64mm	6" x $\frac{5}{8}$ " 150mm x 16mm

Please note that the oval teak bar is not supplied with this item.

1099 Bar Cleat – Screw Down

Gunmetal	O.A. Height	Base Dimensions	Fasteners
1099/GM	2 $\frac{1}{2}$ " 64mm	2 $\frac{7}{8}$ " x 1 $\frac{1}{2}$ " 73mm x 38mm	$\frac{3}{16}$ " 5mm

Brackets are sold singularly, therefore two need to be ordered to make one cleat.

1092

1093

Tufnol Cleats

Strong, lightweight and resistant to the marine environment, these genuine Tufnol cleats will give excellent service for many years.

	Type	Length
1092/00/150	Jamming Cleat	6" 150mm
1093/00/200	Double Cleat	8" 200mm
1093/00/280	Double Cleat	11" 280mm

Wooden Cleats

In teak or varnished ash, these cleats add warmth and style to any vessel. Larger sizes up to 20" are also available to special order.

Ash	Teak	Length	Base Width
1097/AH/100	1097/TK/100	4" 100mm	$\frac{5}{8}$ " 16mm
1097/AH/125	1097/TK/125	5" 125mm	$\frac{3}{4}$ " 19mm
1097/AH/150	1097/TK/150	6" 150mm	$\frac{3}{4}$ " 19mm
1097/AH/175	1097/TK/175	7" 175mm	$\frac{7}{8}$ " 22mm
1097/AH/200	1097/TK/200	8" 200mm	$\frac{15}{16}$ " 24mm
1097/AH/225	1097/TK/225	9" 225mm	1 $\frac{1}{16}$ " 30mm
1097/AH/250	1097/TK/250	10" 150mm	1 $\frac{1}{4}$ " 32mm
1097/AH/300	1097/TK/300	12" 300mm	1 $\frac{1}{2}$ " 38mm

Deck Hardware & Exterior Fittings

Bollard Cleats

All bollard cleats are produced in polished bronze and can be chrome plated to order. Many can also be produced in galvanised iron in batch quantities.

1079

Gunmetal	Length	Base Dia.	Fastenings
1079/GM/125	5" 125mm	2½" 65mm	¼" 6mm
1079/GM/150	6" 150mm	3½" 90mm	¼" 6mm
1079/GM/187	7½" 187mm	4¾" 120mm	⅝" 8mm
1079/GM/225	9" 225mm	5" 125mm	⅝" 8mm

1080

Gunmetal	Length	Base Dia.	Bolt Size
1080/GM/100	4" 100mm	2¼" 57mm	3½" x ⅞" 89mm x 11mm

Deck Hardware & Exterior Fittings

Bronze Sheet & Deck Leads

A variety of polished gunmetal leads to guide sheets and control lines along decks, through coamings etc.

Part No. 9405 is based on our fitting from 1936, which we have re-introduced following requests from our customers. Supplied in polished gunmetal, this fairlead can easily be removed when not required and the gunmetal deck plate can also be used to accomodate our ash stand-up blocks on page 33.

Gunmetal	Internal Dia	Width Overall	Height Overall
9405/GM	5/8" 16mm	2" 50mm	2 1/8" 54mm
9412/GM	5/8" 16mm	2" 50mm	2 1/8" 54mm
9420/GM/50/08	Tapped M8	2" dia. 50mm	7/8" 22mm

Gunmetal	Internal Dia	Width Overall	Height Overall
9401/GM	1/2" 12mm	1 3/8" 41mm	1 1/2" 38mm
9408/GM/016	5/8" 16mm	2 1/4" 58mm	1" 25mm
9408/GM/018	3/4" 18mm	2 5/16" 60mm	1 1/4" 34mm

Bronze & Lignum Vitae Sheet Leads

Lignum Vitae bullseyes secured with phosphor bronze U-bolts or gunmetal screwdown bindings.

	Binding	Inside Eye Dia.	Dimensions L x W
9402/PB/012	1/4" 6mm Bronze U-Bolt 1 3/4" 44mm Long	1/2" 12mm	2 1/4" x 1 1/8" 58mm x 28mm
9402/PB/016	5/16" 8mm Bronze U-Bolt 2" 50mm Long	5/8" 16mm	2 1/2" x 1 1/4" 64mm x 32mm
9404/GM/012	Gunmetal Screwdown	1/2" 12mm	2 7/8" x 1 1/4" 73mm x 32mm
9404/GM/016	Gunmetal Screwdown	5/8" 16mm	3 1/8" x 1 3/8" 79mm x 34mm

Coaming Leads

These leads, which are cast in gunmetal and then polished, are fitted with brass sheaves. Ideal for passing lines through coamings they are available in single or double format.

Gunmetal	No of Sheaves	Max Rope	Size Overall	Coaming Thickness
9415/GM/012	1	8mm	2 3/4" x 1 5/8" 70 x 41mm	1/2" 12mm
9415/GM/016	1	10mm	3 1/16" x 2" 87 x 50mm	5/8" 16mm
9416/GM/012	2	8mm	4" x 1 1/16" 100 x 40mm	1/2" 12mm
9416/GM/016	2	10mm	5" x 2" 125 x 50mm	5/8" 16mm

Deck Hardware & Exterior Fittings

Fender Eye Plates

Available in square or diamond pattern, in barrelled gunmetal, polished gunmetal, chrome plate and galvanised finishes.

Square Pattern with 4 fixing holes		Eye Dia	Base Dims	Fastenings
9384/CP	Chrome Plated	3/4" 19mm	1 3/4" x 1 7/16" 44mm x 37mm	4 off No. 8
9384/GA	Galvanised Iron			
9384/GM	Gunmetal			
9384/GM/POL	Polished Gunmetal			

Diamond Pattern with 2 fixing holes		Eye Dia	Base Dims	Fastenings
9385/CP	Chrome Plated	1/2" 13mm	1 1/8" x 1 1/8" 28mm x 28mm	2 off No. 8
9385/GM	Gunmetal			
9385/GM/POL	Polished Gunmetal			

Lacing Hooks and Eyes

The low profile pattern is cast in gunmetal and the standard pattern stamped in brass. Both are also available in a chrome plate finish.

Low Profile

	Gunmetal	Chrome	Length	Width	Height
Hook	9502/GM	9502/CP	1 3/4" 45mm	5/8" 16mm	5/16" 8mm
Eye	9504/GM	9504/CP	1 5/8" 41mm	7/16" 11mm	3/8" 9mm

Standard Pattern

	Brass	Chrome	Length	Width	Height
Eye	9507/BR	9507/CP	1 3/4" 45mm	9/16" 13mm	1/2" 12mm
Hook	9508/BR	9508/CP	1 5/8" 41mm	5/8" 16mm	7/16" 11mm

Engine Control Lever

A simple but well proven engine control lever with an effective twist lock action. Available in polished brass or chrome plated.

Brass	Chrome	Base Dimensions	Height
9626/BR	9626/CP	3 1/2" x 7/8" 90 x 22mm	5" 125mm

Keel or Rubbing Band

Available in brass with feather edge rather than the thicker half round style. Supplied in full lengths only.

Brass	Width	Thickness	Length
5081/BR/010	3/8" 10mm	1/8" 3mm	10' 3m
5081/BR/012	1/2" 12mm	1/8" 3mm	10' 3m
5081/BR/015	5/8" 15mm	3/16" 5mm	10' 3m
5081/BR/019	3/4" 20mm	3/16" 5mm	10' 3m
5081/BR/025	1" 25mm	3/16" 5mm	10' 3m

Deck Hardware & Exterior Fittings

Forged Shackle Plates - High Load

These unique fittings in brass and manganese bronze have an extremely high strength factor, which is forged in during the manufacturing process. Ideal for use as folding pad eyes or binnacle rings, amongst many others, their non-rattle design will give years of reliable and secure service. Available in two sizes in polished finish or chrome plated.

Brass / Manganese Bronze	Chrome	Plate Size	Shackle Size	Approx. Breaking Load
1761/MB/06	1761/CP/06	1 3/8" x 1 3/4" 41 x 45mm	1/4" 6mm	800 kgs
1761/MB/08	1761/CP/08	2 3/8" x 2 3/8" 60 x 60mm	5/16" 8mm	1200 kgs

Forged Ring Bolts - High Load

Brass bolts turned from solid bar and forged manganese bronze shackles combine to provide a unique fitting designed for high loads in the marine environment. Available in two finishes and three sizes up to 2 tonnes breaking load, this range of ring bolts offers security and reliability for many applications on and around the boat.

Brass / Manganese Bronze	Chrome	Bolt Size	Shackle Size	Approx. Breaking Load
1760/MB/10	1760/CP/10	3/8" x 3" 10mm x 75mm	1/4" 6mm	800 kgs
1760/MB/11	1760/CP/11	7/16" x 3 1/2" 11mm x 90mm	5/16" 8mm	1200 kgs
1760/MB/12	1760/CP/12	1/2" x 4" 12mm x 100mm	3/8" 10mm	2000 kgs

Binnacle Rings

Cast in brass.

1707/MB/12	1/2" 12mm	4 1/2" 115mm	1/2" 13mm

Ringbolt

Cast in brass and available in brass or chrome plate finish.

Brass	Chrome	Shank dia	Shank Length	Ring ID
0631/BR	0631/CP	3/8" 10mm	2 1/8" 55mm	1 1/4" 32mm
0630/BR	0630/CP	1/2" 12mm	2 3/4" 72mm	1 3/4" 45mm

Bronze Threaded Deck Plates

Cast in gunmetal with a polished finish, these versatile round plates are tapped for three sizes of metric thread, M8, M10 and M12. Ideal for when fitting is not always required or needs to be exchanged for an alternative. Suitable for any item with a metric thread or choose from one of the family of Davey items shown below. Available chromed to special order.

Part Number	Thread	Diameter x Height	Thread Depth
9420/GM/50/08	M8	50 x 22mm	15mm
9420/GM/50/10	M10	50 x 22mm	19mm
9420/GM/50/12	M12	66 x 34mm	22mm

Eye Bolts - Bronze

Three new bronze eye bolts with studs M8, M10 and M12 to suit the deck plates above.

Part Number	Stud	Inside Eye HxW	Total Eye Height
9380/GM/08	M8 x 10mm	22 x 19mm	47mm
9380/GM/10	M10 x 15mm	22 x 19mm	47mm
9380/GM/12	M12 x 20mm	28 x 24mm	58mm

NEW

Ring Bolts - Forged

These very strong ring bolts have been especially adapted to suit our deck plates. The bolts are turned from solid brass bar and shackles are forged in manganese bronze.

Part Number	Stud	Shackle Size	Approx Breaking Load
9375/MB/10	M10 x 15mm	1/4" 6mm	1200 kg
9375/MB/12	M12 x 20mm	3/8" 10mm	2000 kg

NEW

Eye Bolts - Stainless Steel

Three sizes of eye bolts in 316 stainless steel to suit our deck plates. Other sizes available on request.

Part Number	Stud	Eye ID	SWL
9381/SS/08	M8 x 13mm	3/4" 20mm	140 kg
9381/SS/10	M10 x 15mm	1" 10mm	230 kg
9381/SS/12	M12 x 20mm	1 1/8" 30mm	340 kg

Removable Bronze Sheet Lead (M8)

See page 18 for details of this and other sheet leads.

Stand-Up Blocks

These blocks can be adapted to suit the deck plates above or permanently fitted. See page 33 for details.

Deck Hardware & Exterior Fittings

Rudder Gear

We have a large selection of rudder gear, in polished gunmetal, to suit a wide range of craft from small dinghies to larger day boats and small cruisers.

Lightweight Rudder Gear

Available in gunmetal to suit lightweight dinghies up to about 8' long. This item is sold as a set, consisting of two transom gudgeons and two rudder pintles. The rudder pintles have an offset single strap, which can either be fitted to one side of a narrow rudder blade or within a wider one.

Gunmetal	Pintle Diameter	Length of Strap
1589/GM/WBI	$\frac{5}{16}$ " 8mm	2½" 64mm

Suitable for the wider rudder, this set is still relatively lightweight and ideal for the heavier, small to medium size dinghy.

Gunmetal	Pintle Diameter	Inside Strap Length		Inside Strap Width
		Gudgeon	Pintle	
1589/GM/MCN	$\frac{5}{16}$ " 8mm	4" 100mm	2½" 64mm	2⅝" 54mm

Standard Duty Rudder Gear

Available in cast and polished gunmetal in four sizes. Sold as a 4-part set.

Gunmetal	Pintle Diameter	Inside Strap Length		Inside Strap Width
		Gudgeon	Pintle	
1589/GM/019	$\frac{7}{16}$ " 11mm	7¼" 185mm	4¼" 105mm	¾" 19mm
1589/GM/025	½" 12mm	7" 175mm	4" 100mm	1" 25mm
1589/GM/044	½" 12mm	8¼" 210mm	5" 125mm	1¼" 44mm
1589/GM/056	½" 12mm	6½" 165mm	6½" 165mm	2⅜" 56mm

Heavy Duty Rudder Gear

Cast in gunmetal for the larger day boat or small cruiser, this range has heavy duty straps and ½" pins for additional strength. The rudder gudgeon is canted by approximately 3 degrees.

Part No.	Description	Pintle / Hole Diameter	Between Straps	Inside Strap Length
1917/GM	Rudder pintle	½" 12.5mm	2½" 65mm	4" 100mm
1918/GM	Rudder gudgeon	½" 12.5mm	2½" 65mm	6" 150mm
1919/GM	Transom gudgeon	½" 12.5mm	-	-
1920/GM	Transom pintle	½" 12.5mm	-	-

Bronze Good Fortune Stars

NEW

A star on board encourages positive energy. It can make good things better and stops bad things getting worse. These stars are heavy cast and hand finished, with a centre screw hole for fixing to any suitable part of the boat. Available in three sizes in polished finish or can be chrome plated to special order.

Part No.	Radius	Span	Thick
9526/GM/030	1 1/4" 30mm	2" 52mm	5 5/16" 8mm
9526/GM/040	1 1/2" 40mm	3" 75mm	3/8" 9.5mm
9526/GM/050	2" 50mm	3 3/4" 95mm	7/16" 11mm

Tiller Fitting

Cast in gunmetal and ready to fit an insert appropriate to your rudder stock.

Gunmetal	Between Straps	Length Overall
1909/GM	1 5/16" 35mm	8" 200mm

Raked

NEW

Deck Hardware & Exterior Fittings

Oar Clamp

A very useful device for securing your oars to the dinghy when it is left unattended. A hole is drilled through the thwart and the clamp passes through gripping the oars under it's arms, a padlock then secures everything in place under the thwart. An optional socket is available to finish the hole neatly. Cast in bronze and polished.

Part No. 1055/GM

Oar Clamp

Part No. 1055/GM/SKT **Optional Socket**

Stemhead Fitting

Cast in gunmetal with a polished finish, this strong stemhead fitting takes the load down the front of the stem and is suitable for craft up to around 18 foot.

Gunmetal	Inside Length	Inside Angle	Width	Height Above Stem
3727/GM	6" 150mm	85 degrees	1" 25mm	1 5/16" 34mm

2633/GM/075	3" 75mm	5 1/4" 133mm	9/16" 14mm

Rowlocks

We have a wide variety of galvanised and gunmetal rowlocks to suit most rowing craft. All come complete with sockets, which we also list separately for ordering as spares or additions. Please note that we supply rowlocks as singles, **not** as pairs.

Gunmetal

Gunmetal rowlocks are a delightful addition to any fine rowing craft. It should be noted however that as this is a softer material it is not suitable for heavy rowing. If additional strength is required, moving up to a larger size would be worth considering.

	Jaw Width		Stem Diameter

Rigging & Sail Handling

Wykeham Martin Furling Gear

In continuous production for over 100 years, this traditional furling gear has been successfully fitted to thousands of boats worldwide. Cast in bronze from the original patterns, the parts are carefully machined, polished and assembled by English craftsmen to produce a beautiful and efficient furling system. Fitted with stainless steel thrust races to ensure free running and easy sail furling. An information leaflet is available on request. Service kits available.

Clew

Boom Fittings

Tack and clew fittings cast in gunmetal. The clew fitting has a double swivel tang, and the tack has a square hole for use with roller reefing.

Part No	Description	Diameter
9446/GM/T/050	Tack Boom End Fitting	2" 50mm
9446/GM/C/050	Clew Boom End Fitting	2" 50mm

Bronze Reefing Claw

Cast in aluminium bronze, which is a very tough alloy, this product is particularly suited to its purpose, being very stiff and strong yet without excessive bulk.

Part No	Inside Diameter
9447/AB/100	4" 100 mm
9447/AB/125	5" 125 mm

Parrel Beads

Turned from Ash and treated with Linseed Oil.

Part No.	Length x Diameter	Bore
0924/00/022	7/8" x 7/8" 22 x 22mm	6mm
0924/00/035	1 1/8" x 1 1/8" 35 x 28mm	8mm
0924/00/044	1 3/4" x 1 3/4" 44 x 35mm	10mm
0924/00/050	2" x 1 3/8" 50 x 42mm	12mm
0924/00/070	2 3/4" x 2 3/16" 70 x 55mm	18mm

Bronze Shroud and Bowsprit Plates

To ensure correct positioning of the plates to the vessel, these products are now supplied undrilled, thus allowing the fitter to drill fixing holes that correspond to the boats strong points.

9471

9472

Gunmetal	Type	Length Overall
9471/GM/075	Shroud plate	3" 75mm
9471/GM/100	Shroud plate	4" 100mm

Hatch Slides

Our 3/4" brass tracks, 1296/BR/T/19 and 1321/BR/T/19, mate perfectly together to provide secure, smooth running hatch sliding gear.

Sliding Decklead

Cast in gunmetal with a polished finish, this decklead fits the 1" (25mm) internal track. and has a knurled thumb screw to secure it at any point of its travel.

Part No. 3446/GM/025

Spinnaker Pole Slide

Cast in gunmetal with a polished finish, this spinnaker pole slide fits the 1" (25mm) internal track. A knurled thumb screw locks it at the desired position.

Part No. 3443/GM/025

Spinnaker Pole End

Polished gunmetal end socket to fit to a wooden spar. Sprung piston end.

Gunmetal	Strap Length	Spar Diameter
3422/GM/100	4" 100mm	1 3/4" 45mm
3422/GM/125	5" 125mm	2 1/4" 58mm

Rigging & Sail Handling

Davey Ash Blocks

Inspired by our 1928 range, we have carefully developed these blocks to have the right proportions for the efficient use with ropes from 8mm to 14mm. They are strong, simple and functional but at the same time have the beauty and elegance to enhance the finest of craft.

Key Features

- Bindings: Heavy gauge stainless steel - internal. Fixed and swivel head.
- Sheaves: Tufnol type material as standard, aluminium bronze as an option.
- Bearings: Plain on oversized SS spindles to spread the load and ensure smooth running.
- Shell: High quality ash, formed into a smooth oval shape and varnished.
- Maintenance: By removing just one machine screw the block can easily be disassembled for inspection and maintenance without damaging the wooden shell.
- Appearance: Just beautiful!

Sizing Table

Shell Length	Rope Size	Sheave Diameter	SWL Kg
3" 75mm	8 - 10	40	1500
3½" 88mm	10 - 12	50	1750
4" 100mm	12 - 14	60	2000

1395/SS/12	12mm	5¼" 135mm	1" 25mm

Sheaves Only

Sheaves are available separately as spares in the normal tufnol type material and also in aluminium bronze for upgrading or other uses. Tufnol sheaves with bronze bushes are also available to special order.

Size Dia. x Width x Bore	Tufnol Type Sheave	Aluminium Bronze Sheave
40 x 12 x 10	0619/OO/040	0619/AB/040
50 x 14 x 12	0619/OO/050	0619/AB/050
60 x 16 x 12	0619/OO/060	0619/AB/060

All the blocks in this range are available in teak to special order - minimum quantities will apply.

Rigging & Sail Handling

Large Ash Blocks

Built to the same high standard, and similar construction method, as our smaller ash blocks but with larger ash shells in relation to the rope size, for use with larger craft. The high strength is derived from the heavy gauge stainless steel bindings and oversized spindles, on which the hard wearing ertalon sheaves run smoothly. The blocks are supplied varnished and suit ropes up to 26mm.

Single Block

Rigging & Sail Handling

Tufnol Type Plastic Laminated Blocks

These traditional laminated plastic blocks are both strong in use and competitively priced. They incorporate a strong AISI 304 stainless steel frame and brass bush bearings, and all breaking loads have been certified by Germanischer Lloyd in Hamburg. (1 daN equals approximately 1 kilo). Larger blocks up to 22mm are also available to special order.

Hot Pot Stove

Hot Pot Stove

A slimline solid fuel cabin heater designed for boats up to around 30 feet (10 metres). Solidly made in the UK from cast iron and finished black with either brass or chrome fitments. It is supplied complete with two internal grids, ash pan and handle. Can be easily installed using the wide range of stainless steel fittings on this page.

Key Features

- Cast iron construction for good heat radiation.
- Infinite air intake control to adjust heat.
- Positive front door lock for security.
- Slim body with small footprint.
- Will burn most solid fuels (not charcoal).
- Stainless steel installation fittings available.
- Safe and secure.

3126/BR Stove with brass fitments

3126/CP Stove with chrome fitments

Stainless Steel Flue System

This range of acid resistant stainless steel pipes and fittings are ideal for installing the Hot Pot stove. All parts push fit together and are compatible for a 70mm installation.

Flue Pipe

Available in four lengths

- 3130/SS/0200** Length 200mm
3130/SS/0330 Length 330mm
3130/SS/0500 Length 500mm
3130/SS/1000 Length 1 metre

Elbow

Available in two angles.

	3131/SS/45	3131/SS/90
Angle	45°	90°
Length mm's	165 + 165	185 + 185

Deck Flange

Available straight or with a choice of three angles to suit the deck camber. All deck flanges have a 160mm overall diameter.

- 3132/SS** Straight
3132/SS/03 Angle 3°
3132/SS/06 Angle 6°
3132/SS/09 Angle 9°

Flue Hood

Compact round shape which is rain proof whilst producing a good draft. Fits securely on to the deck flange.

- Height: 240mm (9½")
 Top Diameter: 130mm (5")
3133/SS

Flue Guard

Stainless steel guard to minimise the risk of contact burns but still allowing heat to radiate from the flue. Also available in brass or copper.

- 3134/SS/0500** Length 500mm
3134/SS/1000 Length 1 metre

Flue Cap

To cap flue when hood is removed.
3135/SS

Plunger Galley Pump

A practical and stylish double action galley pump with swivelling faucet and brass knob. High quality build and with service kits available for long life and optimum performance. Suitable for fresh or salt water. Barrel diameter 1" (25mm) with connection for pipe ½" - ⅝" (13-16mm). Available polished brass or chrome plated.

Brass	Chrome	Strokes per Litre	Above Counter	Below Counter
2593/BR	2593/CP	13	5" 127mm	9½" 241mm

Service Kit: 2593/SK

Plunger Galley Pump - High Capacity

A high quality, very reliable pump with a higher capacity 1⅝" (29mm) barrel. With a greater reach and height, this is a very practical double barrel action pump. Fitted polished brass knob and connection for pipe ½"-⅝" (13-16mm). For fresh or salt water. Available polished brass or chrome plated.

Brass	Chrome	Strokes per Litre	Above Counter	Below Counter
2594/BR	2594/CP	11	5¼" 146mm	6¼" 171mm

Service Kit: 2594/SK

Lever Galley Pump

High quality traditional design lever pump in polished brass or chrome plated. Large 1⅝" (41mm) barrel with connection for ½"-¾" (13-19mm) pipe. For fresh or salt water.

Brass	Chrome	Strokes per Litre	Above Counter	Below Counter
2596/BR	2596/CP	12	8½" 216mm	3" 76mm

Service Kit: 2596/SK

Swivelling Faucet

High quality all brass construction for use with hand or foot pump. Pipe connection ½"-⅝" (13-16mm).

Available polished brass or chrome plated.

Brass	Chrome	Above Counter	Below Counter
2599/BR	2599/CP	4¾" 120mm	2" 50mm

Service Kit: 2599/SK

Brass Bilge Pumps

Available in two sizes, these solid brass bilge pumps are of traditional design and offer a pumping capacity up to 40 litres per minute. Supplied complete with two bulkhead straps. Polished finish.

Part Number	Length	Barrel Diameter	Hose Connection	Litres per min.
2600/BR/09	12" 310mm	1¼" 35mm	¾" 19mm	9
2600/BR/40	17½" 450mm	2½" 63mm	1¼" 32mm	40

Lighting

Please note that all lights have either warm white LED's fitted or recommended LED's to be ordered separately. All LED's operate from 10 to 30 volts DC, except Eyelid Light. See light descriptions and page 48 for full LED listings.

Oval Eyelid Light

NEW

This classically styled, surface mounted, light is manufactured in polished brass and fitted with a frosted lens. Supplied with a 70 lumen LED strip as standard, additional length can be ordered to double the light output. Available in 12v and 24v, these are ideal for berth, step or walkway lighting wherever unobtrusive lighting is required.

	Brass	Chrome	Dimensions	Projection
12v	7605/BR/12	7605/CP/12	5 3/4" x 3 3/8" 148mm x 100mm	1 5/8"
24v	7605/BR/24	7605/CP/24		40mm
LED Strip	7605/LED/12	7605/LED/24	50mm long x 15mm wide	

Recessed Square Berth Light - with switch

Polished cast brass and fitted with a frosted glass and switch. This recessed pattern requires a depth of 1" (25mm). Fitted with 2 warm white 60 lumen LED's as standard.

Brass	Chrome	Height	Width	Projection
7614/BR	7614/CP	5 1/2" x 5" 140 x 125mm	5 1/4" x 4 3/8" x 1" 134 x 105 x 25mm	1 1/2" 38mm

Recessed Square Berth Light - without switch

NEW

For remote switching, especially when 2 or more lights are fitted in a cabin, this popular light is now available without switch. Polished brass front with frosted glass. Fitted with 2 warm white 60 lumen LED's as standard.

Brass	Chrome	Height	Width	Projection
7615/BR	7615/CP	5 1/2" x 5" 140 x 125mm	5 1/4" x 4 3/8" x 1" 134 x 105 x 25mm	1 1/2" 38mm

Teardrop Berth Light

Polished cast brass and fitted with a frosted dome glass and switch, this unique light is fitted with a warm white 60 lumen LED's as standard.

Brass	Chrome	Height	Width	Projection
7246/BR	7246/CP	5 3/4" 145mm	3" 75mm	2" 50mm

Brass Bracket Light (without switch)

This graceful light is cast in brass with a polished finish and supplied with a frosted bell glass and SBC (BA15d) bulb holder. Will accept our 60 lumen warm white LED 6001/12/60 see page 48.

Height with glass 4.1/4" (108mm). Projection 3.1/2" (89mm)

Part No. 7215/BR Brass

Part No. 7215/CP Chrome

Brass Bracket Light (with switch)

A switched version of the light above. Polished cast brass and supplied with a frosted bell glass, SBC (BA15d) bulb holder and toggle switch. Will accept our 60 lumen warm white LED 6001/12/60 see page 48.

Height with glass 5" (125mm). Projection 5" (125mm).

Part No. 0396/BR Brass

Part No. 0396/CP Chrome

Deck Head Lights - 'Jelly Mould'

These high quality period lights are now available in a variety of versions that can be mixed throughout the boat for maximum practicality and uniformity. Utilising the same genuine frosted glass, the heavy cast brass housing can be supplied with or without switch and in a choice of finishes. Suitable for many kinds of traditional craft.

- With or without switch
- Polished brass, chrome or nickel plate
- Full back case or low profile
- Fitted LED's 12v - 30v as standard
- Red/White option for night vision

Without switch

Deep cast brass base that can be surface mounted or recessed up to the bezel level. Fitted warm white LED 165 lm.

Brass	Chrome	Overall Diameter	Projection
0391/BR	0391/CP	6 3/4" 170mm	3 1/4" 58mm

With switch

Deep cast brass base as above with switch fitted on the side. Fitted warm white LED 165 lm.

Brass	Chrome	Overall Diameter	Projection
0392/BR	0392/CP	6 3/4" 170mm	3 1/4" 58mm

Night Vision (with switch)

This light is the same construction as the switched 0392 above, but comes fitted with a red/white LED. When first switched on it always displays the red light first to preserve your night vision. If white light is required, simply turn off and on again and the white light will come on. No special wiring is required.

Brass	Chrome	Overall Diameter	Projection
0392/BR/RW	0392/CP/RW	6 3/4" 170mm	3 1/4" 58mm

Low Profile (without switch)

This low profile version is ideal for when headroom is restricted as it has a projection of only 1 1/2" (40mm), which is 3/4" (18mm) less than the standard light. To achieve this a flat stainless steel base is utilised which is concealed by the same brass bezel and glass as above.

Fitted warm white 165 lm. No switch.

Brass	Chrome	Overall Diameter	Projection
0393/BR	0393/CP	6 3/4" 170mm	3 1/4" 58mm

Lighting

0330

7502

Art Deco Interior Lights

Two styles of attractive period lights with genuine moonstone glass. The 0330 has a chrome back plate and the 7502 has a front silver trim. Both are fitted with 2 warm white LED's (1 x 210 lm and 1 x 60 lm) to give a pleasing even light.

Part No.	Length	Width	Projection
0330	8 7/8" 210mm	3 7/8" 95mm	2 1/2" 60mm
7502	8 1/2" 215mm	2 7/8" 73mm	2 5/8" 66mm

Weatherproof Guarded Light

This traditional light is of all brass construction with a polished finish. The strong guard screws onto a seal in the base and protects the clear glass. Suggested LED 6001/12/60 60 lm.

Part No.	Length	Flange Diameter	Bulb Holder
7203/BR/M/CL	4 7/8" 105mm	3 1/16" 80mm	SBC

Weatherproof Guarded Light (bulkhead fitting)

Similar to the above, this light is of all brass construction with a 90 degree bracket for fixing to a bulkhead. Suggested LED 6001/12/60 60 lm.

Part No.	O.A. Length	Projection	Bulb Holder
7207/BR/M/CL	6 1/2" 165mm	3 1/2" 85mm	SBC

Weatherproof Guarded Bulkhead Light

Cast in brass with traditionally wired hinged door secured with three brass swing bolts with wing nuts on to a rubber seal. Polished outer surface and fitted with clear glass, SBC bulb holder and brass cable gland. This is a deluxe, hand made light of unique character. Suggested LED 6001/12/60.

Brass	Body Diameter	O.A. Diameter	Projection
7425/BR	4 1/2" 114mm	6" 150mm	2 1/2" 64mm

Bulkhead Light - Powder Coated

Cast in aluminium and fitted with an SBC bulb holder, cable gland and front seal. Powder coated either white with clear glass and brass gland or matt black with frosted glass and chrome gland. Suggested LED 6001/12/60.

White with Clear Glass	Black with Frosted Glass	Body Diameter	O.A. Diameter	Projection
7425/AL/WH	7425/AL/BK	4 1/2" 114mm	5 1/2" 140mm	2 3/4" 70mm

Mast Light - New Style

NEW

A new development of this classic light now means that it can be wired directly to 110/220v AC. Ideal for larger vessels where mains voltage is often installed or for smaller boats linked to shore power. Also suitable for pontoons and shore side lighting, avoiding the need to fit a transformer.

12v/24v DC supply versions available as before.

Cast in bronze with a choice of finishes or in anodised aluminium. The base of the light is angled up 10 degrees to aid the throw of light and a hinged glazed door with a seal is fitted. Back gasket also included. Rated IPX5

Mast Light - 110/220v AC

Available rear wired only with a GU10 lamp holder included, which offers the opportunity of selecting from a wide range of LED's in terms of angle and strength of light. This makes it possible to fit the correct LED taking into account the height the light is mounted from the surface to be lit and the spread and light brightness required.

Part No.	Material	Height	Width	Projection
0760/AL/AN	Anodised Aluminium	5 1/4" 135mm	3" 75mm	3 1/4" 81mm
0760/GM/PO	Bronze/Polished			
0760/GM/SD	Bronze/Sand Blasted			
0760/CP	Chrome on Bronze			

Mast Light - 12v/24v DC

Available for wiring through a top water tight gland or through the back, this light is supplied with a G4 lamp holder for low voltage LED's of varying degrees of spread and brightness.

With Gland	Rear Wired	Material	Height	Width	Projection
0761/AL/AN/TOP	0761/AL/AN	Anodised Aluminium	5 1/4" 135mm	3" 75mm	3 1/4" 81mm

0761/GM/SD/TOP	0761/GM/SD	Bronze/Sand Blasted			
0761/CP/TOP	0761/CP	Chromed Bronze			

Step Light

Recessed step or bulkhead light with heavy ribbed glass and polished cast brass guard. Also available in chrome. Fitted SBC bulb holder which can accept our 60 lm LED 6001/12/60. Projection only 1" (25mm).

Brass	Chrome	Height	Width	Projection
7576/BR	7576/CP	5 1/2" 140mm	4 3/8" 111mm	1 1/2" 38mm

Lighting

Brass Gimbal Lamp

Manufactured from brass, which is then polished and lacquered and fitted with a burner with 1" wide wick. The weighted font holds 350ml of fuel and will keep the lamp burning for approximately 24 hours. Complete with smoke shade and arm. Overall Height: 9½" (240mm). Projection: 6¼" (160mm).

Part No. 0308/BR

Globe Lamp

Constructed of solid brass in traditional style. The glass globe is 7" (175mm) in diameter and the round burner gives an even bright light. The oil reservoir holds 250ml and will burn for approximately 35 hours.

Part No. 0191/BR

Dietz Hurricane Lamps

The original deck, cabin or emergency oil lamp. One version is made of tinned and lacquered steel and is a very inexpensive lamp for all vessels for general purpose or emergency use. This lamp is also available in all brass construction for longer life and higher quality. Oil container 210ml. Burn time approx 11 hours. Flat wick ½" (12.5mm).

Part No. 0234 Tinned steel

Part No. 0234/BR Brass

Spare Glasses

We can supply spare glasses for many of the lights we sell. Please select from the table below by lamp number.

Part Number	To suit light
0041/CL	7203/BR/M & 7207/BR/M
0044/FR	7426 teardrop berth light
0234/GL	0234 hurricane lamp
0308/GL	0308/BR gimbal lamp
0390/OO/GLASS	0391, 0392 & 0393 jelly mould lights
0445	0396 & 7215 bracket lights
0760/OO/GL/CL	0760 mast lights
7425/GL/CL	7425 bulkhead lights (brass & aluminium)
7614/OO/GL	7614 recessed berth light

Lamp Wick

Supplied by the metre.

Part Number	Width
0096/00/06	¼" 6mm
0096/00/10	⅜" 10mm
0096/00/12	½" 12mm

0112/BR	0112/CP	Masthead			
0113/BR	0113/CP	Stern			

Switches

Flush switch rated at 2 amps. Optional back plate 1½" x 2" in brass or chrome.

Brass	Chrome	Type
0260/BR	0260/CP	With back plate
0362/BR	0362/CP	Without back plate

Lighting

Replacement LED's

All LED's listed here are warm white to preserve as much as possible the integrity of our traditional lights. They all work on a voltage range from 10 volts to 30 volts and offer a significant power saving over standard filament and halogen bulbs and are often interchangeable with them. Other variations are available on request.

Part No.	Cap Type	LED's	Lumens	Power Draw Watts	Body Dims mm's
6000/12/60	G4	12	60	0.6	20 long 8.2 dia.

A classic Scandinavian design to bring light and elegance to any table.

Stainless Steel.

Height: 230mm

Burn time: 15 hours

ES/650302 Polished

ES/650303 Brushed

Door, Hatch & Interior Fittings

Sea Blue Security Locks

NEW

10 Year Guarantee

Sea Blue Security locks have been developed in the lock capital of England to withstand both corrosion and physical attack. Heavy steel full casings are used for strength with drab olive high chromate electro protection, as used on military equipment and vehicles where exposure to corrosion is a high factor. The whole case is then powder coated and packed with life long heavy grease that will not thin or dry out. Each set is built with high quality brass shoots, followers and forend plates to complement our range of furniture. Stainless steel forend and striker plates also available.

Mortice Lock - 5 lever

High level security lock with 5 internal levers. The latchbolt is reversible to suit left or right opening doors with a follower to suit furniture with standard 8mm square spindles. The deadbolt has two hardened steel rollers.

Supplied with striker plate and two keys.

Forend Plate	6" x ¾"	152 x 20mm
Lock Case	4¼" x 2½" x ½"	108 x 63 x 15mm
3500/BR	Brass forend	
3500/SS	Stainless Steel forend	

Toilet Lock

Utilising the same high quality case as above, this toilet door lock operates using furniture with 8mm spindles and toilet door turn & release furniture with 5mm spindles, as shown on page 51, to lock. The latchbolt is reversible to suit left or right opening doors.

Supplied with striker plate.

Forend Plate	6" x ¾"	152 x 20mm
Lock Case	4¼" x 2½" x ½"	108 x 63 x 15mm
3501/BR	Brass forend	
3501/SS	Stainless Steel forend	

Mortice Latch

For operation using furniture with 8mm spindles, this reliable latch is perfect for internal doors that do not need locking.

Supplied with striker plate.

Forend Plate	4" x ¾"	102 x 20mm
Lock Case	2¾" x 2½" x ½"	61 x 63 x 15mm
3502/BR	Brass forend	
3502/SS	Stainless Steel forend	

Rim Locks

Traditional cast brass construction with polished cases and keepers. They have a two lever action with bronze springs and the latchbolt is reversible on the larger size.

Left Hand	Right Hand	Height		Width	
3522/BR/062/LH	3522/BR/062/RH	5"	125mm	2½"	62mm
3523/BR/125/LH	3523/BR/125/RH	4¾"	111mm	5"	125mm

Traditional Furniture

This range is supplied as knob & knob or ring and knob for both rim and mortice locks. The knob is 1¾" (44mm) in diameter and the ring is 2" (50mm). All sets come complete with round roses, escutcheons with covers and ⅝" (8mm) spindles.

Brass	Furniture Type	Lock Type
9200/BR/M	Knob & Ring	Mortice
9200/BR/R	Knob & Ring	Rim
9203/BR/M	Knob & Knob	Mortice
9203/BR/R	Knob & Knob	Rim

Oval Knob & Ring

A smaller set than the above with a 1¾" (44mm) oval knob and 1½" (38mm) ring. Manufactured from high quality cast brass components with a polished finish. All sets come complete with round roses, escutcheons with covers and ⅝" (8mm) spindles.

Brass	Lock Type
9205/BR/M	Mortice
9205/BR/R	Rim

Die Cast Brass Furniture

A range of furniture in die cast brass with ⅝" (8mm) spindles, ideally suited to the 3474 & 3476 style of locks. Stamped brass rose is an optional extra. Also available in chrome plated finish.

Brass	Furniture Type	Sizes	
3477/BR	Oval Knob & Ring	Knob: 2"	50mm
3478/BR	Oval Knob & Knob*	Ring: 1½"	35mm
3485/BR	Lever	Lever: 3"	75mm
3482/BR	Rose	Rose: 1¼"	45mm

* Not pictured

Turn & Release Toilet Door Furniture

We offer two styles of toilet door furniture to suit our lock 3501. Both cast brass with a polished finish, there is an oval turn with plain rose or a curved turn with raised edge rose. Supplied with a 5mm spindle and external emergency release. Also available chrome plated.

Brass	Chrome	Overall Diameter	Projection
3510/BR	3510/CP	1½" 35mm	1½" 28mm
3511/BR	3511/CP	1½" 35mm	1¼" 30mm

Tools

Speedy Stitcher

This very useful tool is basically a hand operated sewing machine, and is suitable for most fabrics and leather. It is supplied with a bobbin of waxed thread, one bent needle and one straight one and full instructions. Sold singularly, they are available in a display box of 6.

Part No.	Item
1501	Speedy Stitcher complete
1502	Straight Needle
1503	Fine Needle
1504	Curved Needle
1505	Spare Bobbin
1506	Waxed Thread-Heavy
1507	Waxed Thread-Light

Leather Sailmakers Palms

Daveys seaming palms are available in three qualities, 'best' and 'store', with a tied back, or lightweight, with an adjustable buckle. Roping palms, with extended thumb guard, come in 'best' and 'store' quality. All palms, except the lightweight versions, are lined with hide. Available in left or right hand.

Left hand	Right hand	Type
3050/00/BU/LH	3050/00/BU/RH	Seaming, lightweight
3050/00/ST/LH	3050/00/ST/RH	Seaming, store quality

Swedish Fids

Stainless steel hollow spike with wooden handle.

2478/SS/170 6³/₄" (170mm) long.

2478/SS/285 11¹/₄" (285mm) long.

Tools

Knives

A range of high quality knives made in the heart of England's steel city of Sheffield.

Green River Knife

With 5" (125mm) carbon steel blade, hardwood handle and leather sheath.

Part No. 1500

Heavy Duty Riggers Knife

With a thick carbon steel 5½" (140mm) long blade and shaped hardwood handle.

Part No. 1491

2-Piece Yachtsman's Kit

Stainless steel knife and marlin spike shackle key. Complete with leather sheath.

Part No. 1487

Lockspike Captain's Knife

A heavy duty, traditionally made, stainless steel pocket knife with a 60mm blade and lockable spike, large capacity shackle key (for pin heads up to 9mm), bottle opener and white cotton lanyard.

Part No. 1488

Caulking Irons - Hand Forged

We have a range of carbon steel caulking irons, which are light and comfortable to hold for long periods. A variety of sizes are available to suit the required seam widths.

Part No.	Type	Seam Width	Part No.	Type	Seam Width
1561	Sharp Straight	-	1566	Single Crease	3 - 4mm
1562	Sharp Bent	-	1567	Single Crease	4 - 5mm
1565	Single Crease	2mm	1568	Single crease	6 - 7mm

Caulking Mallet

Made from hard wood, this is the ideal mallet for use with the above caulking irons. Head length 10½" (270mm).

Part No. 0946

Scrapers

A range of strong, general purpose scrapers.

Part No.	Type	Length	Blade Width
1460	Bent	12" 300mm	2⅞" 70mm
1462	Straight c/w Wooden Handle	Blade - 12" 300mm Handle - 12" 300mm	2⅞" 70mm

Fastenings

Copper Boat Nails & Roves

We have an extensive range of copper nails in both countersunk head and rose head, together with a complementary range of copper roves. All items are packed in boxes of 1 kilo and we show the approximate quantity per box. Other sizes are available to special order, in minimum quantities of 10 kilos.

Copper nails are manufactured to the wire gauge, where the highest number is the thinnest nail. We list below the range of gauges that we supply with the approximate equivalent size in millimetres, which is measured across the flats.

Wire Gauge	mm		Wire Gauge	mm		Wire Gauge	mm
16g	1.65		11g	3.00		7g	4.50

Boat Care

Jeffery's No.2 Black Marine Glue

This traditional product, now owned by Davey & Company, has been the premier choice for traditional deck seaming around the world for decades.

Still produced in England from the original formula, it is as reliable today as throughout the last century. It will adhere tenaciously to the seam for many years, remaining flexible in low temperatures and withstanding softening at high temperatures.

To apply, once carefully heated to a working temperature of around 370 degrees F (190 degrees C) it can be poured onto the prepared seams. Two applications are needed to ensure that all steam and air are released. Average usage 1kg to 10 metre run.

Part No. 5025/00/0125 12.5 kg (27½ lbs)

Part No. 5025/00/025 25.0 kg (55 lbs)

Oakum

Best navy oakum steeped in Stockholm Tar. Generally used for caulking below the waterline, due to its high durability.

Part No. 1569/00/04 4 kg coil

Part No. 1569/00/12 12 kg bale

Caulking Cotton

Soft, top quality caulking cotton made up of 8 strands totalling an uncompressed diameter of approximately 5/16" (8mm). Supplied in balls of ½ kilo.

Part No. 1570

Red Lead Powder

A bright orange powder with strong preservative properties. When mixed with linseed-oil putty it make 'red lead putty' for use as stopping in seams below the waterline on wooden craft.

An appropriate ratio of 16 parts putty to 1 part red lead powder is about the right proportions, with linseed oil added to modify the mixture to the required consistency.

Part No. 5049/00/001 1 kg. tub

Part No. 5049/00/025 25 kg. bag

Daveyshine

A high performance metal cleaner and polish ideally suited to bronze, brass, copper, stainless steel, aluminium, chrome and other marine metals. Its smooth paste formula is easy to apply accurately and when removed leaves a shiny surface and protective film, which delays re-tarnishing. Even heavily tarnished fittings can be restored. The handy 170 gram tub is long lasting as Daveyshine is used sparingly and the wide tub opening allows every last gram to be used.

Key Features:

- Cleans and polishes in one product
- Leaves protective coating
- Non-toxic, non-abrasive, non-inflammable
- No harsh acids, caustics or abrasives
- Low allergic risk
- Non spill formula & tub
- Also excellent for restoring fibreglass, plexiglass, eisenglass and lexan.

Part No. 5010/00/170

Lanoguard

Lanoguard is an all-purpose anti-corrosive, lubricant and water proofing agent that delivers superb results in a wide variety of applications. It can be used on metals, leather, plastics and other materials such as fibreglass.

Its principal ingredient is lanolin (wool grease), a natural oil that has been used throughout the centuries for the protection of weapons, leather and marine equipment. The combination of natural lanolin and today's technology makes Lanoguard's uses almost limitless.

Key Features:

- Tenacious lubricant
- Rust inhibitor/anti-seize
- Long lasting protector
- Non conductive
- Outstanding waterproofing
- Safe for leather, vinyl and rubber
- Environmentally friendly
- Non toxic and non carcinogenic

Part No. 5057/00/200	2 Litre Liquid Spray

Stockholm Tar

A strongly preservative thick liquid used to preserve natural cordage and timber. Traditionally used to coat servings on rigging and is the substance added to oakum to stop it rotting. Worth having for the wonderful smell alone.

Part No. 2809/00/01	1 kg tub
